

BLACK AND GOLDEN (BICX)

*TRAVEL GREEN, RENT ECOLOGICAL:
TOGETHER FOR A HEALTHY PLANET*

PROBLEMATIC

the use of transportation which pollutes the environment
with smoke

MISSION

- To be the first Mexican company to rent alternative transportation (bicycles, scooters) for a more practical and healthy mobilization as well as help the environment with this alternative service, which for the safety of both the client and themselves are monitored through GPS device.

VISION

- Be a company recognized throughout Mexico, which people can use at any time, without having to have a car or other companies, so that an ecological change can be created.

BUSINESS LINE

Bicx is an innovative payment service company with an Android app for daily electric skate and bicycle rentals, providing diverse delivery choices.

ABOUT US

- The Bicx company is in charge of producing highly technological scooters monitored by the company through a GPS and bicycles of various varieties. At every appropriate and possible time, we innovate the product to make it safer and more satisfactory to the customer, as well as with a graphical view adding and technically insured in every way.

NATURAL RESOURCES

- We use products that are not toxic or harmful to the environment, good quality products such as cables, batteries, paints, recyclable parts, fans so that the motor does not overheat. We use long-lasting paints with small chemical and green area functions.
